MEMORANDUM FOR: Chief, Systems and Image Evaluation Branch,
TID/NPIC

**NRO REVIEW
COMPLETED**

THROUGH: Deputy Chief, Photogrammetric Branch *ecb*

ATTENTION: Chief, Section B

25X1A

SUBJECT: Project "RINGAROUND" Mensuration Evaluation

1. Four aircraft were selected from [redacted] to be measured in order to satisfy this requirement. The true wingspans were established through P.I. identification. Mensuration was carried out on all the frames in this packet which included all color hues and densities [redacted]

25X1A

25X1A

2. The mensural results of this study do not indicate any one color balance which stands out from the rest as being superior for mensuration purposes.

3. In view of this fact, TID has chosen frame number four which it feels most nearly approaches natural color when viewed in the [redacted] comparator.

25X1

4. For additional information on this subject, see [redacted] PB/MS.
